10 Tips on Winning a Scholarship

1. Start searching for scholarships as soon as possible. Don't wait until spring of your senior year in high school to start searching, or you'll miss half the deadlines. Continue searching for scholarships even after you are enrolled in college. Consider this like a full-time job.
2. Answer all of the optional questions on a scholarship matching web site for about twice as many matches.
3. Use a free scholarship matching service like some of those you will find at the end of this bulletin.
4. Pick up applications for local scholarships in Ms. Morales's office (when available) or the financial aid offices of local colleges & universities and check out the public library's jobs and careers section.
5. Apply to *every scholarship for which you are eligible*. Pursue less competitive scholarships, such as small awards and essay contests, since they are easier to win, and the money adds up and helps you win bigger scholarships.
6. Don't miss deadlines. Use a calendar and checklist to get organized.
7. Tailor your application to the sponsor's goals. Read and follow the instructions carefully.

8. If you have difficulty writing essays, try recording yourself as you answer the question out loud, and transcribe the recording later. Most people can think and speak faster than they can write or type. Create an outline afterward to organize your thoughts.
9. Personalize your essay and be passionate. Write about something of interest to you. Make your application stand out from the crowd. Talk about your impact on other people. Give examples and be specific.
10. Google your name and make sure you have a professional online profile. Use a professional email address, such as firstname.lastname@gmail.com. Clean up the content of your Facebook/Instagram/Snapchat etc... accounts, removing inappropriate and immature material.
